Python Module Index 27

Index 29

PYBOXES

CHAPTER

ONE

AIMS

- **Simple**: A simple and easy to use Python library for many annoy task.
- **Easy to use**: Easy to use, you can use it in your project.
- **Extendable**: Extendable, you can add your own function easily.

CHAPTER

TWO

FEATURES

- *A simple and easy to download files by sharing link*
- *A simple and easy to send message to Slack Channel*
- *Download multiple files asynchronously*
- Download Books from Zlib in terms of Title Will come!

CHAPTER

THREE

INSTALLATION

You can install *Pybox* via pip from PyPI:

```
$ pip install pyboxes
```

CHAPTER

FOUR

USAGE

```
$ pybox -h
```

Please see the Command-line Reference Usage for details.

CHAPTER

FIVE

TAKE A TOUR

5.1 A simple and easy to download files by sharing link

5.1.1 1. Download single file by sharing link of Google Driver.

```
$ pybox gfile <url> <name> <size>
```

5.1.2 2. Download files in a folder by client id and folder id.

```
$ pybox gfolder <client_id> <folder_id>
```

Detailed usage please see [Usage Documentation]

5.2 A simple and easy to send message to Slack Channel

```
$ pybox slack [options] <webhook-url>
```

Detailed usage please see [Usage Documentation]

5.3 Download multiple files asynchronously

5.3.1 1. Download single file.

```
$ pybox asyncdown -u <url> -o <output>
```

5.3.2 2. Download multiple files.

```
$ pybox asyncdown -f <url-file>
```

For example, suppose `urls.txt` in which the first column is the file name and the second column is the download url. `pybox asyncdown -f urls.txt` will download all files in parallel.

```
ENCFF888ZZV.fastq.gz https://www.encodeproject.org/files/ENCFF888ZZV/@@download/
↪ENCFF888ZZV.fastq.gz
ENCFF883SEZ.fastq.gz https://www.encodeproject.org/files/ENCFF883SEZ/@@download/
↪ENCFF883SEZ.fastq.gz
ENCFF035OMK.fastq.gz https://www.encodeproject.org/files/ENCFF035OMK/@@download/
↪ENCFF035OMK.fastq.gz
ENCFF288CVJ.fastq.gz https://www.encodeproject.org/files/ENCFF288CVJ/@@download/
↪ENCFF288CVJ.fastq.gz
```

Detailed usage please see [Usage Documentation]

CHAPTER

SIX

CONTRIBUTING

Contributions are very welcome. To learn more, see the *Contributor Guide*.

CHAPTER

SEVEN

LICENSE

Distributed under the terms of the MIT license, *Pybox* is free and open source software.

CHAPTER

EIGHT

ISSUES

If you encounter any problems, please file an issue along with a detailed description.

CHAPTER

NINE

CREDITS

This project was generated from @cjolowicz's Hypermodern Python Cookiecutter template.

9.1 Usage

9.1.1 pybox

This tool include a bunch of useful commands:

1. Download single file or all files in a folder for Google Driver
2. Send message to Slack
3. more to come...

```
pybox [options] <command>
```

Yangyang-Li https://yangyangli.top/ 2023

9.2 Command

9.2.1 gfile

Download file in Google Driver. You need to provide the sharing url, and estimated size of the file. The config is in terms of the file size so you need to be careful! Specify the size is divided into 2 classes:

the large file : file size > 100mb -> size parameters: l
the small file : file size < 100mb -> size parameters: s
Usage:
pybox gfile -u https://drive.google.com/file/d/1-2-3-4-5/view?usp=sharing l
pybox gfile -f url-file.txt l

```
gfile [options] <size>
```

Options

-u, --url <url>
the sharing link of the google drive file.

-o, --out <name>
the output file name.

Default
out

-f, --url-file <url-file>
the file contains the sharing link of the google drive file.

Arguments

<size>
Required argument

9.2.2 gfolder

Download files in folders in Google Drive.

Usage:
pybox gfolder <json-file> -i <folder_id>
pybox gfolder <json-file> -f <folder_ids>

If you use server to download files, you may need to supress browser open:

pybox gfolder <json-file> -i <folder_id> –code

folder_id: id of the folder to download.
folder_ids: a file contains a list of folder ids.

```
gfolder [options] <json>
```

Options

-i, --fid <folder_id>

-f, --fids <folder_ids>

--code

Arguments

<json>
Required argument

9.2.3 slack

Send message to Slack. You can either provide a message or a file containing the messages. Also, you can provide both a message and a file containing messages. However, if the message and message file are both missing, the command will exit with an error.

```
slack [options] <webhook-url>
```

Options

-m, --message <message>
the message to send to slack

Default
No message provided

-mf, --message-file <message-file>
read message from file instead of command line

--log-level <log-level>

Default
INFO

Options
DEBUG | INFO | WARNING | ERROR | CRITICAL

Arguments

<webhook-url>
Required argument

9.2.4 asyncdown

Download files in terms of links asynchronously.

Examples:
pybox asyncdown -u url-link -o book.pdf
pybox asyncdown -f url-file.txt

Note:
1. If you want to download multiple files, you can use the url-file.

```
asyncdown [options]
```

Options

-u, --url <url>
URL to download

-o, --out <name>
Output name

Default
out

-f, --url-file <url-file>
File containing URLs to download

-t, --time <time-out>
Time out (min) for each download

Default
40

-w, --workers <max-worker>
Maximum number of workers

Default
128

--wf
Write failed items to failed.txt

Default
False

9.3 Reference

9.3.1 pybox

Pybox.

9.4 Contributor Guide

Thank you for your interest in improving this project. This project is open-source under the MIT license and welcomes contributions in the form of bug reports, feature requests, and pull requests.

Here is a list of important resources for contributors:

- Source Code
- Documentation
- Issue Tracker
- *Code of Conduct*

9.4.1 How to report a bug

Report bugs on the Issue Tracker.

When filing an issue, make sure to answer these questions:

- Which operating system and Python version are you using?
- Which version of this project are you using?
- What did you do?
- What did you expect to see?
- What did you see instead?

The best way to get your bug fixed is to provide a test case, and/or steps to reproduce the issue.

9.4.2 How to request a feature

Request features on the Issue Tracker.

9.4.3 How to set up your development environment

You need Python 3.7+ and the following tools:

- Poetry
- Nox
- nox-poetry

Install the package with development requirements:

```
$ poetry install
```

You can now run an interactive Python session, or the command-line interface:

```
$ poetry run python
$ poetry run pybox
```

9.4.4 How to test the project

Run the full test suite:

```
$ nox
```

List the available Nox sessions:

```
$ nox --list-sessions
```

You can also run a specific Nox session. For example, invoke the unit test suite like this:

```
$ nox --session=tests
```

Unit tests are located in the *tests* directory, and are written using the pytest testing framework.

9.4.5 How to submit changes

Open a pull request to submit changes to this project.

Your pull request needs to meet the following guidelines for acceptance:

- The Nox test suite must pass without errors and warnings.
- Include unit tests. This project maintains 100% code coverage.
- If your changes add functionality, update the documentation accordingly.

Feel free to submit early, though—we can always iterate on this.

To run linting and code formatting checks before committing your change, you can install pre-commit as a Git hook by running the following command:

```
$ nox --session=pre-commit -- install
```

It is recommended to open an issue before starting work on anything. This will allow a chance to talk it over with the owners and validate your approach.

9.5 Contributor Covenant Code of Conduct

9.5.1 Our Pledge

We as members, contributors, and leaders pledge to make participation in our community a harassment-free experience for everyone, regardless of age, body size, visible or invisible disability, ethnicity, sex characteristics, gender identity and expression, level of experience, education, socio-economic status, nationality, personal appearance, race, religion, or sexual identity and orientation.

We pledge to act and interact in ways that contribute to an open, welcoming, diverse, inclusive, and healthy community.

9.5.2 Our Standards

Examples of behavior that contributes to a positive environment for our community include:

- Demonstrating empathy and kindness toward other people
- Being respectful of differing opinions, viewpoints, and experiences
- Giving and gracefully accepting constructive feedback
- Accepting responsibility and apologizing to those affected by our mistakes, and learning from the experience
- Focusing on what is best not just for us as individuals, but for the overall community

Examples of unacceptable behavior include:

- The use of sexualized language or imagery, and sexual attention or advances of any kind
- Trolling, insulting or derogatory comments, and personal or political attacks
- Public or private harassment
- Publishing others' private information, such as a physical or email address, without their explicit permission
- Other conduct which could reasonably be considered inappropriate in a professional setting

9.5.3 Enforcement Responsibilities

Community leaders are responsible for clarifying and enforcing our standards of acceptable behavior and will take appropriate and fair corrective action in response to any behavior that they deem inappropriate, threatening, offensive, or harmful.

Community leaders have the right and responsibility to remove, edit, or reject comments, commits, code, wiki edits, issues, and other contributions that are not aligned to this Code of Conduct, and will communicate reasons for moderation decisions when appropriate.

9.5.4 Scope

This Code of Conduct applies within all community spaces, and also applies when an individual is officially representing the community in public spaces. Examples of representing our community include using an official e-mail address, posting via an official social media account, or acting as an appointed representative at an online or offline event.

9.5.5 Enforcement

Instances of abusive, harassing, or otherwise unacceptable behavior may be reported to the community leaders responsible for enforcement at [INSERT CONTACT METHOD]. All complaints will be reviewed and investigated promptly and fairly.

All community leaders are obligated to respect the privacy and security of the reporter of any incident.

9.5.6 Enforcement Guidelines

Community leaders will follow these Community Impact Guidelines in determining the consequences for any action they deem in violation of this Code of Conduct:

1. Correction

Community Impact: Use of inappropriate language or other behavior deemed unprofessional or unwelcome in the community.

Consequence: A private, written warning from community leaders, providing clarity around the nature of the violation and an explanation of why the behavior was inappropriate. A public apology may be requested.

2. Warning

Community Impact: A violation through a single incident or series of actions.

Consequence: A warning with consequences for continued behavior. No interaction with the people involved, including unsolicited interaction with those enforcing the Code of Conduct, for a specified period of time. This includes avoiding interactions in community spaces as well as external channels like social media. Violating these terms may lead to a temporary or permanent ban.

3. Temporary Ban

Community Impact: A serious violation of community standards, including sustained inappropriate behavior.

Consequence: A temporary ban from any sort of interaction or public communication with the community for a specified period of time. No public or private interaction with the people involved, including unsolicited interaction with those enforcing the Code of Conduct, is allowed during this period. Violating these terms may lead to a permanent ban.

4. Permanent Ban

Community Impact: Demonstrating a pattern of violation of community standards, including sustained inappropriate behavior, harassment of an individual, or aggression toward or disparagement of classes of individuals.

Consequence: A permanent ban from any sort of public interaction within the community.

9.5.7 Attribution

This Code of Conduct is adapted from the Contributor Covenant, version 2.0, available at https://www.contributor-covenant.org/version/2/0/code_of_conduct.html.

Community Impact Guidelines were inspired by Mozilla's code of conduct enforcement ladder.

For answers to common questions about this code of conduct, see the FAQ at https://www.contributor-covenant.org/faq. Translations are available at https://www.contributor-covenant.org/translations.
